

Youth Services Focusing on Foster Care Seeks Financial Guidance As They Branch Off From Parent Organization

Connected by 25

Connected by 25 is an organization, originally created by United Way of Central Indiana, focusing on providing children in foster care with opportunities to learn how to be self-sustaining by age 25.

The Challenge

Connected by 25 began with a wonderful mission and vision, but when separating into a stand-alone nonprofit, realized they needed a partner with nonprofit and accounting expertise to help them understand exactly what they needed to know.

The Solution

Starting from scratch, Foster Results worked with staff to create a chart of accounts, develop a general ledger system and create best practice financial procedures. The Foster team provided leadership and answered questions while working with the staff, the Board of Directors and United Way of Central Indiana.

The Foster team continues to provide Controllershship services for Connected by 25.

HIGHLIGHTS

Connected by 25 received a clean audit

Provides Controllershship-level and audit prep services

Provides monthly financial information and month-end reconciliation

“The Foster team provided leadership and answered questions while working with the staff, the Board of Directors and United Way of Central Indiana.”
